

FAASTeam presents:

# **DE MYTH A FLYING - I Really Thought I Knew That!**

Rethinking the answers. So many of us really know what we were taught, but is it still right today? We learned from the folks we knew. But, truth be told, there is a lot of bad stuff out there that was legitimately professed, but as the times have changed, so have our ideas about what is correct, and what is not.

This presentation is a wonderful, entertaining collection of myths that most pilots know to be true, and would willingly swear by them; but aren't! Many GA flight aspects are covered... Aero-medical, aerodynamic, Best Glide facts, Angle of Attack, Flight Controls, Aircraft Instruments, EGT use, Flight Controls, and more... Lot's of audience participation!

**Directions:** Enter the airport area at the Osborne St. main entrance near the intersection of Osborne and San Fernando Road. Plenty of free parking. Drive to far end of lot near Airport Manager's office.

#### **A message from the National FAASafety Team Manager**
